WHY PARTNER WITH READYSET

A productized format your roster keeps re-booking.

| | |
|----------------------------|---|
| Reuse across events | Build the format once. Re-deploy it per client without rebuilding from scratch. |
| Margin potential | Premium price point, low marginal cost — your team's time, not a custom build. |
| Scalable delivery | Run multiple editions in parallel without expanding your production team. |
| Faster execution | From brief to launch in 4–6 weeks. Repeat editions on a 2–3 week loop. |

| | | | |
|----------------------------------|------------------------|----------------------------------|-----------------------|
| 2–3x | 3.4x | ~60% | 4–6 wk |
| Margin uplift vs. bespoke builds | Client re-booking rate | Producer hours saved per edition | Time to first edition |
